

Plant Analysis Handbook IV

COLOR PHOTOGRAPHS OF PLANT DEFICIENCIES & TOXICITIES

NEW

Color photographs of nutrient deficiencies and toxicities are presented for essential plant nutrients. This book is an absolute necessity for laboratories conducting plant analysis, **over 1400 crop nutrient ranges**, as well as; consultants, growers and those in the industry

recommending fertilizer for crop production. Critical information regarding all **“17”** essential plant nutrients are presented. Faculty and students will find information in this book ideally suited as a comprehensive **“Key Text”** for college courses in **“Plant Nutrition”**.

SINGLE COPY PRICE IS \$159.
